

ACTIONWEAR SASKATOON INC.
114 Melville Street, Saskatoon, SK S7J 0R1

Sizes: Pant

Actionwear pants are stocked in even waist sizes from size 28 to size 50.

The actual waist circumference of the pant is two inches bigger than the size indicated on the label. For example, a size 34 waist pant will measure 36 inches in circumference. Other manufactures allow different amounts of fit room, please use the following procedure to determine the proper waist size to order:

1. Measure around your waist, where you would like your waistband to sit. This is best measured against the skin.
OR
Measure the actual waist circumference from a pair of your existing pants that fit well. Fasten the button along the waist band and measure across the garment in inches. Multiply by two to obtain your waist size.
2. Choose the appropriate Actionwear waist size that equals or slightly exceeds this measurement.

Numeric Sizing Chart: Pants

PANT SIZE	WAIST SIZE	
	FROM	TO
28	28"	29.5"
